Message From Director's Desk

Schools are like temples which help to enlighten the mind and behaviour of young ones and teachers are the artisans who shape their childhood with their guidance, to become well established individual in their future whereas parents are the pillars who help us with their co-operation and full dedication to carry out this task with full responsibility and passion.

Management of Doon International School is fully committed in endeavours for all round development of its students and this goal can not be achieved without the support of the parents.

Usually child spends two third of the time in home then in the school which automatically puts collective pressure on both the counterparts to be more vigilant in the path to mould the young one's to be successful personality in future. It has been our consistent endeavour to provide quality education coupled with sound character building with judicious-mix of Indian culture with globally accepted education system.

I invite you to the campus of Doon International School and feel the vibrations of its ambience which can be compared with the physical and human Infrastructure found in any school in the country. Let us together lay a solid foundation of New India by giving opportunity to all the deserving children to achieve their best in physical, intellectual, emotional and spiritual development.

Welcome to the world of Doon International School !!

Well, Primary and Secondary education plays a vital role in an individual's career and intellectual development. It works as a solid foundation for successful higher education and subsequent life stages. These days, we are witnessing many institutions and schools imparting school education at various levels. They are doing their level best; however, I believe that education is not just about books and exams; it is all about a force and great differentiator. We created Doon International school with the vision to provide an excellent opportunity to the students and parents looking for holistic development. We built not just the buildings and classrooms; but we have created an ecosystem and environment for learning and education. We created a culture of excellence and performance. With Continuous improvement in our systems, facilities and amenities, we have always added one more reason to choose DIS as a preferred destination for school education. I must mention that we are proud to have a team of talented and dedicated teachers who are experts in their respective subjects. They have the proven track record to produce excellent results in the CBSE board examinations. They are the real assets of the school. I take pride that our school has produced top scorers and achievers.

From a humble beginning, we have now grown into a full-fledged school education service provider. I wish to thank all who have contributed and also who are contributing to the journey of DIS family. I wish to thank students, parents, teachers and administrators as well as staff. Achieving excellence is different from sustaining the one. I am sure that our people would surely maintain the culture of excellence and flourish over a period of time.

I wish all the best to all of you and thank you to be a part of the Doon International School Family.
Happy learning and happy career building,

HARSHPREET SINGH

Principal's Desk

Dr. Krishna Chauhan

As I bask in to the grandeur of all the years that Doon International School has been in existence what comes to my mind is that "Success comes to those who work hard and stays with those who don't rest on the laurels of the past". Today as we live in the world where change is riding at an accelerated pace and we need to pause and reflect on the entire system. I firmly believe that students must be taught "How to think" not "What to think".

This reminds me the great words of wisdom by Aristotle. "Educating the mind without educating the heart is no education at all."

At DIS we impart education to match the advancement of technology and globalization, the ethos of morals and ethical principles.

I wish & hope that the best creative endeavours of your ward will be showcased while studying at Doon International School and will play a great role in promoting the feeling of nationalism and integration.

May Goddess Saraswati bless us with wisdom.

A Process of Enlightenment of every child...
